design  made in italy

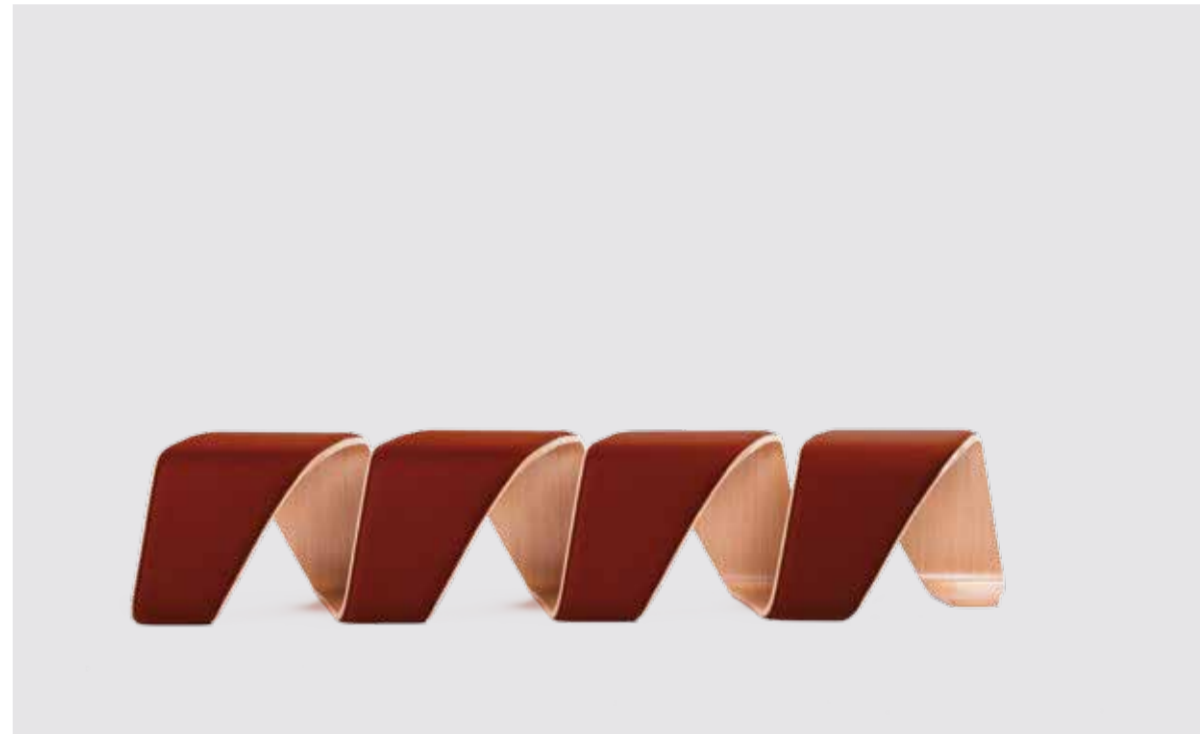

TRUE DESIGN offers a wide collection of armchairs, sofas and benches with an high content of design and functionality that perfectly suit modern waiting and working spaces. The aim of the collection is to go beyond fashion by overtaking those signs that too quickly change from innovative into conventional.

It is a modern young company with a great history behind: TRUE DESIGN brand was indeed created in 2009 as a spin-off of TMA, a company with over 30 years of experience in the auditorium seating manufacture.

All products are designed and developed in cooperation with well known Italian and international designers, such as Orlandini Design, Favaretto and Partners and Leonardo Rossano; the manufacture process is completely developed in Italy, with maximum attention to quality control and environment aspects, as attested by ISO 9001 and ISO 14001 company certifications.

TRUE DESIGN products are distributed all over the world by a network of agents, importers and local distributors; the proposed collection is suitable for all kinds of public spaces, such as offices, waiting areas, lounges, hotels, libraries and all those environments where soft seating need to be functional.
